Dear Judiciary Committee,

My name is sinjin valdes from Enfield ct. I am a law abiding citizen who like many people are talking today, strongly oppose proposed SB 16 and HB 5416.

The proposal SB16 will do nothing to deter, or reduce crime in any way. All this proposals will do is affect the ability of law-abiding citizens in protecting themselves from criminals. This is proven by the Public Act 13-3 of 2013. If that gun control act worked, why is there need for additional gun control all these years later?

The proposed bills SB 16 and HB 5416 are both clear violations of our second amendment right, the right of the people to keep and bear Arms, shall not be infringed.

Thank you
Sinjin valdes
